Comment on Commission meeting agenda item - Theo M Leonard

The following should be included as part of the public comment for the July PDC meeting.

Peter,

Is it normal for the PDC to withhold evidence until the point a hearing starts? How would one go about preparing for such a hearing? I anticipate my public records requests to be handled in a timely matter before any hearing. It's obviously something you and Kim Bradford have been missing. Why would there be a hearing when the Kittitas County Auditor told the PDC I was not appointed.

As much as anything it's a very simple question. After you and I spoke, did you correspond with the County Auditor? Per our conversation you told me you understood the situation and would make an effort to confirm with the Auditor whether or not I was appointed. If you scheduled a hearing without having that conversation, you are a liar. If I work with the County Commissioners and my Attorney to further prove what we already know, that would also make you incompetent.
