The PDC is garbage and only interested in hurting the citizens of WA State. The PDC literally sets up their website so that anyone they accuse of an infraction automatically comes up at the top of any search. Imagine a scenario where someone spends a lifetime volunteering and helping the citizens of WA. In return they have the displeasure of dealing with Peter and Kim and their life's work is now permanently scarred because of what amounts to a nothing infraction. Now get in the real world where this is how the PDC actually operates. The PDC is going to be sued for purposefully setting their search engine optimization tools in an effort to defame to citizens of WA. It's a specific strategy they employ and it's pathetic and exactly in line with how the PDC operates. This email is required to be posted as part of any meeting agenda.
