## City of Bellevue Public Comment

External Email

23 October 2023

Dear PDC and CCs;

I just gave final notice verbally and am also in writing here that the City Council of Bellevue is allowing Tsimerman to arguably campaign to smear his Iranian-American opponent. I am asking that in the next week, representatives of the PDC, please issue clear guidelines on how to deal with Tsimerman's antics, as postal votes are in the mail. Otherwise, I'm going to have to file a formal complaint and I'd rather *not*.

It is becoming clear that there are loud, seditious voices for appeasement in Bellevue City Hall who are cowering in battle and must be held accountable. Tsimerman was arrested one week ago and allowed back into Bellevue City Hall to hurl anti-Semitism and worse. After being ejected for... campaigning. That's all the proof I need.

This ongoing problem is now resulting in meeting disruption and the interaction of law enforcement and now some counterbattery fire. Listen we got two more Mondays to worry about - plus the King County Council's many meetings. Tsimerman's causing trouble there too, so please make outreach to the King County Council also.

I should also notify the CCs that members of the media will be kept briefed. Maybe it's time we escalated this a bit and protected everyone. Got that? Thanks.

One last thing: I think the PDC needs to be extremely clear to the legislature there needs to be penalties on the Tsimermans of the world who do stuff like this. We've got a sympathetic if not friendly Mayor at the epicenter of this who may or may not be in control of the situation.

I'll give this one more week. That's it. Wouldn't say I would blame Team Mo for beating me to lobbing a PDC complaint.

Get to work please;

JOE SENDS
