To Whom It May Concern:

I recently learned that the PDC held an input session regarding updated election guidance for school districts. Can I get a transcript or recording of the session? Or is it posted somewhere? I was only made aware of the session after the fact, and I am very interested in learning more about this discussion and the potential impacts on public school districts.

In today's environment, it is challenging for school districts to pass any measure, levy, or bond. Districts need ALL communication tools in their tool chests to reach as many people as possible. Removing or limiting the use of social media will cripple school districts and restrict their ability to reach the masses. It takes multiple attempts in multiple ways before people pay attention to these essential measures. And this is complicated by the complexities around school funding.

Please provide as much information about this session as possible, including the opportunity to testify before making a decision. Thank you.

Sincerely,

Jodi Runyon
