Public Comment 10/24 meeting

External Email

I would like to offer public comment at tomorrow's meeting.

Unfortunately, the agenda does not provide a location for the meeting. I guess we can only come in remotely.

I can do that. Please provide me with information on how to connect so that I can offer public comment.

The agenda has been a bit fluid, with the addition of enforcement items. The current estimate I see is 1:30. If that changes, please do let me know.

My public comment will be supportive of the staff recommendation on rulemaking. My understanding is that the Rulemaking agenda item is "*whether to enter into rulemaking*" not consideration of the rule itself. My public comment will be supportive of the staff proposal to enter into rulemaking. I understand that the staff recommendation is for a public hearing in December.
